Butterflies

Living Classroom Event!

Join us for a free class: You Can Help Save the Monarch Butterfly

When: Monday - February 4th, 2019 9:30-10:30 a.m.

Where: Los Altos School District - iLearn Studio
201 Covington Road, Los Altos 94024

RSVP: livingclassroom@lasdschools.org

We are excited to announce this special presentation with guest speaker and Monarch Butterfly expert, Eleanor Laney.

Learn About:

- ▶ Life cycle of the Monarch Butterfly
- ▶ Migration patterns east and west of the Rockies
- ▶ Why numbers have diminished since 1990
- ▶ Learn what you can do to help reverse the decline & invite the Monarch Butterfly back to your home

About Eleanor:

With a Degree in History from Stanford University, Eleanor went on to earn her Associates Degree in Environmental Horticulture and Landscape Design from Foothill College. She specializes in creating designs that help customers install four - season pollinator gardens. In 2013, Eleanor acted as Conservation Chairman of the Garden Club of Palo Alto and assisted in creating an environmental project "Monarch Migration Revival" to address the threatened butterfly. Through this project, they propagated over 2,000 native Milkweed and distributed them to over 1,000 gardeners in the SF Peninsula. Eleanor traveled to the UNESCO World Heritage Overwintering site of 146 Million Monarch Butterflies in the mountains of Michoacán, Mexico. Through her experiences, education and pure passion, Eleanor is excited to share her knowledge on how our efforts can revive the Monarch Butterfly.
